Dear Mr. Fowles:

On June 20 and 22, 2006, I conducted aerial detection surveys for gypsy moth-caused tree defoliation at 16 Army Corps of Engineers projects located within the Pittsburgh District. The sites include: Berlin Lake, Conemaugh River Lake, Crooked Creek Lake, Michael J. Kirwan Dam, East Branch Lake, Kinzua Dam, Loyalhanna Lake, Mahoning Creek Lake, Mosquito Creek Lake, Shenango River Lake, Stonewall Jackson Lake, Tionesta Lake, Tygart Lake, Union City Reservoir, Woodcock Creek Lake, and Youghiogheny River Lake. I am pleased to report that no defoliation was detected at, or in the vicinity of, your sites.

However, if you anticipate requesting financial or technical assistance for gypsy moth control in 2007, please contact Brad Onken (304) 285-1546 or me (304) 285-1555 before August 25, 2006.

Please contact me at the above number if you have any questions regarding this aerial survey or survey letter.

Sincerely,

Rodney L. Whiteman
